

Grace Christian Academy Building Project Update

Building Update #1 – June 10, 2025

By God's grace and blessing we officially broke ground on our new building on May 3, 2025. We would like to thank all who you took the time to be part of such a meaningful and joyous occasion. For more photos of this occasion, please [CLICK HERE](#).

Progress Highlights

- Site preparation began with excavators clearing and grading the land, laying the groundwork for all future construction phases.
- New water pipe from the street to the school have been installed.
- Water line infrastructure installed.
- Inspections are underway, and all water testing has passed successfully.
- Sidewalks and curbs are scheduled for pouring soon, with paving to follow shortly.
- Teams are on-site installing mechanical systems and preparing for the next phase of fire suppression upgrades.
- Roofing work is in full swing on the existing building and will continue over the next few weeks. Crews are making good use of dry days to stay on track.
- Window removal and framing are underway on the west side of the existing building.
- Inside the current building, ceiling updates, lighting changes, and infrastructure prep are all in progress.
- Work is also beginning on new interior openings that will enhance the flow and function of the space.
- Early prep is already ahead of schedule, setting us up for the next phase in just a couple of weeks.
