

Grace Christian Academy Building Project Update

Building Update #3 – August 19, 2025

Progress Highlights

Interior Progress

- Ceiling grid installation is complete, with just a few final sections remaining.
- Ductwork installation is complete.
- Carpet and base have been laid in all necessary areas, except where tunnel covers are located.
- New lights have been installed and are operational.
- The IT server room has been relocated, and new speaker systems with integrated clocks have been installed.
- The new HVAC controls are still in progress and will be one of the last pieces installed.
- New Connecting Hallway: Block work around a roof drain will be finished, followed by temporary walls and doors on each end of the corridor.
- Stonework under the front windows will be completed.

- Sprinkler system repairs and lawn restoration are underway.

New Addition & Exterior Work

- **Masonry Progress:** Block work on the new addition continues at an impressive pace, roughly a semi-truck load of block is being laid each day!
- **Floor Pours:** Concrete floors for the east-side classrooms, music room, hallway, woodshop, and restrooms were poured in phases over August 12–14.
- **Gym Prep:** Crews plan to prepare the gym floor on Friday, August 16, with concrete pouring scheduled for Monday, August 18.
- **Structural Steel:** Seven semi-truck loads of structural steel are expected to arrive on August 18, with steel framing beginning the following week on August 25.
- **Storage:** Storage areas like the boiler and maintenance rooms must remain accessible, so a temporary container has been rented to help hold items until permanent spaces are ready.

Looking Ahead

We're in the final stretch of summer construction, and while there's still work to be done, each day brings visible transformation. We are excited for students to return to school on Thursday, August 21. While the students are learning, construction will continue on the new building. Thank you for your continued patience and prayers as we prepare to welcome students into refreshed, improved spaces, and lay the foundation for an exciting future.
